### INDEPENDENT AUDITOR'S REPORT

To the shareholders of UAB Capitalica Baltic Real Estate Fund I

### Opinion

We have audited the consolidated financial statements of UAB Capitalica Baltic Real Estate Fund I and its subsidiaries (hereinafter the Group), which comprise the consolidated statement of financial position as of 31 December 2021, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the requirements of the Law on Audit of the financial statements of the Republic of Lithuania that are relevant to the audit in the Republic of Lithuania, and we have fulfilled our other ethical responsibilities in accordance with the Law on Audit of the financial statements of the Republic of Lithuania and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

Other information consists of the information included in the Group's 2021 Annual Report, other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information presentation.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon, except as indicated below.

In connection to our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

We also have to evaluate, if the consolidated financial information included in the Group's Annual Report corresponds to the consolidated financial statements for the same financial year and if the Group's Annual Report was prepared in accordance with the relevant legal requirements. In our opinion, based on the work performed in the course of the audit of the consolidated financial statements, in all material respects:

- The financial information included in the Group's Annual Report corresponds to the financial information included in the consolidated financial statements for the same year; and
- ► The Group's Annual Report was prepared in accordance with the requirements of the Law on Consolidated Financial Reporting by Groups of Undertakings of the Republic of Lithuania.

### Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Notes to the consolidated financial statements

### 1 General information

The closed-end investment undertaking for informed investors CAPITALICA BALTIC REAL ESTATE FUND I UAB (hereinafter – the Company) is a limited liability company registered in the Republic of Lithuania on 5 October 2016. Its registered office address is Upės st. 21-1, Vilnius.

The main activity of the Company – collective investment of informed investor assets in the real estate market in order to spread risks and earn profit for the Company's shareholders. On 22 October 2016, the Bank of Lithuania issued a licence No 03-202 to the Company to operate as an investment company under the Republic of Lithuania Law on Collective Investment Undertakings for Informed Investors. Before the issue of the licence, the Company operated as a private limited liability company and its shareholders had all the rights and obligations determined by the Law on Companies of the Republic of Lithuania.

The goal of the Company is to ensure a long-term growth of return to the shareholders by investing in the real estate market of the Baltic States, focusing on investing in commercial real estate. Investments in residential real estate are also possible. The Company invests in real estate objects which are in their early stages of development i.e. under construction, as well as in already completed real estate objects.

The Company is able to operate not longer than 10 years from the day on which the Bank of Lithuania issued the licence to operate as an investment company. This term can be extended by 2 years.

The Company is managed by CAPITALICA ASSET MANAGEMENT UAB (hereinafter "the Management Company"), registered as at 4 May 2016, company code 304234719, registered office address Laisvės ave. 3, Vilnius. On 17 August 2016, license No 03-118 was issued to the Management Company by the Bank of Lithuania, enabling it to manage collective investment undertakings intended for informed investors operating under the Republic of Lithuania Law on Collective Investment Undertakings for Informed Investors.

As at 31 December 2021 and 2020, the shareholders of the Company were as follows:

Shareholder	Ownership interest as at 31 December 2021, %	Ownership interest as at 31 December 2020, %
SBA Grupė UAB	14.51	21.64
Minority shareholders	85.49	78.36
Total:	100.00	100.00

As at 31 December 2021 and 2020, the share capital amounted to EUR 18,362,432, split into 18,362,432 units of ordinary registered shares, the nominal value of each was EUR 1. All the shares were fully paid.

The securities accounts of the investment company are managed by AB Swedbank, company code 112029651, registered office address Konstitucijos Ave. 20A, Vilnius, which is a direct participant of the Lithuanian Central Securities Depository, code No. 962, and AB SEB bankas, company code 112021238, registered office address Gedimino Ave. 12, Vilnius.

### The structure of the Group

As at 31 December 2021 and 2020, the group of Closed-End Investment Undertaking Intended For Informed Investors CAPITALICA BALTIC REAL ESTATE FUND I UAB consisted of the Company and the following directly controlled subsidiaries (hereinafter "the Group"):

Company	Country	by the Group (%) as at 31 December 2021	<del>-</del>	Main activities
PC Luizė UAB	Lithuania	100	100	Lease of real estate
Žaliakalnio Parkas UAB	Lithuania	100	100	Real estate lease and development
Verslo Centras 135 UAB	Lithuania	100	100	Lease of real estate
SIA Hanza 14	Latvia	100	100	Real estate lease and development
UAB Hanza 14 LT*	Lithuania	100	-	Financial service activities

<sup>\*</sup> UAB Hanza 14 LT is indirectly fully (100%) controlled through the subsidiary SIA Hanza 14.

In 2021 and 2020, there was 1 employee (Director) working in all the Group companies.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 1 General information (continued)

The Group management approved these financial statements on 4 May 2022. The shareholders of the Group have the right to either approve these financial statements or not approve them and require the management to prepare a new set of financial statements.

### 2 Summary of significant accounting policies

### 2.1. Basis for preparing financial statements

These financial statements of the Group for the year ended 31 December 2021 are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (hereinafter "the EU"). The separate Company's financial statements are prepared in accordance with Business Accounting Standards (BAS).

The Group has prepared these financial statements according to IFRS which are applicable to the periods starting from or after 1 January 2021.

## Application of new and/or changed IFRS and interpretations issued by International Accounting Standards Board (IASB)

The accounting policies adopted are consistent with those of the previous financial year except for the following amended IFRSs which have been adopted by the Group as at 1 January 2021:

## Interest Rate Benchmark Reform — Phase 2— IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (Amendments)

In August 2020, the IASB published Interest Rate Benchmark Reform – Phase 2, Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, completing its work in response to IBOR reform. The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR). In particular, the amendments provide for a practical expedient when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, to require the effective interest rate to be adjusted, equivalent to a movement in a market rate of interest. Also, the amendments introduce reliefs from discontinuing hedge relationships including a temporary relief from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component. There are also amendments to IFRS 7 Financial Instruments: Disclosures to enable users of financial statements to understand the effect of the interest rate benchmark reform on an entity's financial instruments and risk management strategy. While application is retrospective, an entity is not required to restate prior periods. These Amendments had no impact on the Group's financial statements.

### • IFRS 16 Leases-COVID-19 Related Rent Concessions (Amendment)

The amendment applies, retrospectively, to annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted, including in financial statements not yet authorised for issue at 28 May 2020. IASB amended the standard to provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the COVID-19 pandemic. The amendment provides a practical expedient for the lessee to account for any change in lease payments resulting from the covid-19 related rent concession the same way it would account for the change under IFRS 16, if the change was not a lease modification, only if all of the following conditions are met:

- > The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change.
- > Any reduction in lease payments affects only payments originally due on or before 30 June 2021.
- There is no substantive change to other terms and conditions of the lease.

The Group has no such rent concessions, therefore the application of these amendments did not have a significant impact on the financial statements.

### Standards issued but not yet effective

The Group has not applied the following issued but not yet approved standards.

### Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015, the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. The amendments have not yet been endorsed by the EU. The Group has no investments in associates or joint ventures, therefore, the adoption of these amendments will not impact the financial statements.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.1. Basis of preparation (continued)

• IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (Amendments) The amendments were initially effective for annual reporting periods beginning on or after January 1, 2022 with earlier application permitted. However, in response to the covid-19 pandemic, the Board has deferred the effective date by one year, i.e. 1 January 2023, to provide companies with more time to implement any classification changes resulting from the amendments. The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current or non-current. The amendments affect the presentation of liabilities in the statement of financial position and do not change existing requirements around measurement or timing of recognition of any asset, liability, income or expenses, nor the information that entities disclose about those items. Also, the amendments clarify the classification requirements for debt which may be settled by the company issuing own equity instruments.

In November 2021, the Board issued an exposure draft (ED), which clarifies how to treat liabilities that are subject to covenants to be complied with, at a date subsequent to the reporting period. In particular, the Board proposes narrow scope amendments to IAS 1 which effectively reverse the 2020 amendments requiring entities to classify as current, liabilities subject to covenants that must only be complied with within the next twelve months after the reporting period, if those covenants are not met at the end of the reporting period. Instead, the proposals would require entities to present separately all non-current liabilities subject to covenants to be complied with only within twelve months after the reporting period. Furthermore, if entities do not comply with such future covenants at the end of the reporting period, additional disclosures will be required. The proposals will become effective for annual reporting periods beginning on or after 1 January 2024 and will need be applied retrospectively in accordance with IAS 8, while early adoption is permitted. The Board has also proposed to delay the effective date of the 2020 amendments accordingly, such that entities will not be required to change current practice before the proposed amendments come into effect. These Amendments, including ED proposals, have not yet been endorsed by the EU. The management has not yet evaluated the impact of the implementation of this amendment on the Group's financial statements.

## • IFRS 3 Business Combinations; IAS 16 Property, Plant and Equipment; IAS 37 Provisions, Contingent Liabilities and Contingent Assets as well as Annual Improvements 2018-2020 (Amendments)

The amendment applies to annual reporting periods beginning on or after 1 January 2022. Earlier application is permitted. The IASB has issued narrow-scope amendments to the IFRS Standards as follows:

- > IFRS 3, Business Combinations (Amendments), update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- > IAS 16 Property, Plant and Equipment (Amendments) prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
- ➤ IAS 37 Provisions, Contingent Liabilities and Contingent Assets (Amendments) specify which costs a company includes in determining the cost of fulfilling a contract for the purpose of assessing whether a contract is one rous.
- Annual Improvements 2018–2020 make minor amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 9 Financial Instruments, IAS 41 Agriculture and the Illustrative Examples accompanying IFRS 16 Leases.

The management has not yet evaluated the impact of the implementation of these amendments.

### • IFRS 16 Leases-COVID 19 Related Rent Concessions beyond 30 June 2021 (Amendment)

The Amendment applies to annual reporting periods beginning on or after 1 January 2022, with earlier application permitted, including in financial statements not yet authorised for issue at the date the amendment is issued. In March 2021, the Board amended the conditions of the practical expedient in IFRS 16 that provides relief to lessees from applying the IFRS 16 guidance on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. Following the amendment, the practical expedient now applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. The Group had such rent concessions, but, based on the management judgement, the application of these amendments will not have a significant impact on the financial statements.

## • IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting policies (Amendments):

The Amendments are effective for annual periods beginning on or after 1 January 2023 with earlier application permitted. The amendments provide guidance on the application of materiality judgements to accounting policy disclosures. In particular, the amendments to IAS 1 replace the requirement to disclose 'significant' accounting policies with a requirement to disclose 'material' accounting policies. Also, guidance and illustrative examples are added in the Practice Statement to assist in the application of the materiality concept when making judgements about accounting policy disclosures. The amendments have not yet been endorsed by the EU. The management has not made an assessment of the effect of application of the amendments on the Group's the financial statements.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.1. Basis of preparation (continued)

## • IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates (Amendments)

The amendments become effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. The amendments introduce a new definition of accounting estimates, defined as monetary amounts in financial statements that are subject to measurement uncertainty. Also, the amendments clarify what changes in accounting estimates are and how these differ from changes in accounting policies and corrections of errors. The amendments have not yet been endorsed by the EU. The management has not made an assessment of the effect of application of the amendments on the Group's the financial statements.

## • IAS 12 Income taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments)

The amendments are effective for annual periods beginning on or after 1 January 2023 with earlier application permitted. In May 2021, the Board issued amendments to IAS 12, which narrow the scope of the initial recognition exception under IAS 12 and specify how companies should account for deferred tax on transactions such as leases and decommissioning obligations. Under the amendments, the initial recognition exception does not apply to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. It only applies if the recognition of a lease asset and lease liability (or decommissioning liability and decommissioning asset component) give rise to taxable and deductible temporary differences that are not equal. The amendments have not yet been endorsed by the EU. The management has not made an assessment of the effect of application of the amendments on the Group's the financial statements.

The Group plans to adopt the above-mentioned standards and interpretations on their effective date provided they are endorsed by the EU.

### 2.2. Presentation currency

The amounts in these financial statements are presented in the national currency of the Republic of Lithuania, euro. The amounts in financial statements are rounded to thousand EUR if it is not otherwise stated and may not reconcile in notes due to rounding up. Such rounding bias is immaterial in these financial statements.

### 2.3. Principles of consolidation

The consolidated financial statements of the Group include the Company and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year, using consistent accounting policies.

Control is obtained when the Group is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Group controls an investee if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure or rights to variable returns from its involvement with the investee;
- The ability to use its power over the investee to affect its returns.

Subsidiaries are consolidated from the date from which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. All intercompany transactions, balances and unrealised gains and losses on transactions among the Group companies are eliminated.

### 2.4. Intangible assets

Intangible assets acquired separately are measured initially at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. Intangible assets are recognised if it is probable that future economic benefits that are attributable to the asset will flow to the entity and the cost of asset can be measured reliably.

The useful lives of intangible assets are assessed to be either finite or indefinite.

After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets are amortized on a straight-line basis over the estimated useful lives.

Other intangible fixed assets 4 years.

Intangible assets are assessed for impairment whenever there is an indication that the intangible assets may be impaired. The Group does not own any intangible assets with an indefinite useful life.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.5. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur.

The Group capitalizes borrowing costs for all qualifying assets where acquisitions, construction or production was commenced on or after 1 January 2009.

During 2021 and 2020, no borrowing costs were capitalised.

### 2.6. Investment property

Investment property at initial recognition is accounted for at acquisition cost including transaction costs. Subsequent to initial recognition, investment property is measured at fair value.

The market value of the Group's investment property is derived from reports prepared by independent property appraisers having appropriate recognised professional qualifications and necessary experience in valuation of property at certain location and of certain category, or the value is estimated on the basis of discounted future cash flows or market price of similar assets. Rentals earned are recognised in sales revenue. Gains or losses arising from changes in the fair values of investment properties are recognized in the statement of comprehensive income as a separate line item.

Maintenance expenses of investment property are recognized in the statement of comprehensive income during the financial period in which they are incurred. Costs are capitalised only when it is probable that future economic benefits associated with the item will flow to the Group, and the cost of the property can be reliably measured.

### 2.7. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### Financial assets

Initial recognition and evaluation

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, at fair value through other comprehensive income (OCI), and at fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables and contract assets that do not contain a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under IFRS 15.

Financial asset is classified and measured at amortised cost or fair value through other comprehensive income, where cash flows arising from financial asset are solely payments of principal and interest (SPPI) on the principal amount outstanding. This assessment is known as the SPPI test and is performed for each financial instrument.

The Group's business model for managing financial assets refers to how the Group manages its financial assets in order to generate cash flows. The business model determines whether cash flows will be generated by collecting contractual cash flows, by selling this financial asset or by using both options.

A regular way purchases or sales of financial assets are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

After initial recognition, the Group measures a financial asset at:

- (a) At amortised cost (debt instruments).
- (b) At fair value through other comprehensive income with recycling of cumulative gains and losses upon derecognition (debt instruments). The Group did not have such items as at 31 December 2021 and 2020;
- (c) At fair value through other comprehensive income with no recycling of cumulative gains and losses upon derecognition (equity instruments). The Group did not have significant balance of such instruments as at 31 December 2021 and 2020.
- (d) Fair value through profit or loss. The Group did not have such items as at 31 December 2021 and 2020.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.7. Financial instruments (continued)

Financial asset at amortised cost (debt instruments)

The Group measures financial assets at amortised cost if both of the following conditions are met:

- (i) The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- (ii) Contractual terms and conditions of financial asset allow for obtaining cash flows, on certain dates, which are solely the payments of the principal or the interest on the outstanding principal.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method, less impairment losses. Gains or losses are recognised in the statement of comprehensive income when the asset is derecognised, replaced or impaired.

The Group's financial assets at amortized cost includes trade, other current and non-current receivables, receivables and loans granted.

### Impairment of financial assets

Following IFRS 9, in common case scenario, the Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date.

### (a) Estimation of the impairment of trade receivables

For the purpose of the estimation of doubtful amounts receivable, the Group has established a matrix of expected loss rates based on historical credit loss analysis and adjusted to reflect future factors specific to borrowers and the economic environment (macroeconomic market indicators, employment rate, consumer price index, etc.).

Credit loss amount of trade receivables is accounted for through profit (loss) using a contrary account of doubtful receivables. A financial asset is derecognised when there is no reasonable expectation to recover contractual cash flows.

### (b) Estimation of the impairment of loans granted

The Group grants loans to related entities with fixed term recovering conditions and takes into consideration respective loan market interest rates. In the case of a loan, in general, the expected credit loss for 12 months is assessed and accounted for. In subsequent reporting periods, in the absence of a significant increase in the credit risk associated with the borrower, the Group adjusts the balance of expected credit losses for 12 months against the outstanding amount of the loan at the assessment date. When it is determined that the borrower's financial position has significantly deteriorated compared to the situation at the time of the loan.

the Group accounts for all expected credit losses for the loan period. When the ECL for loans' useful lives are calculated, such loans are considered as credit-impaired financial assets.

The Group considers a financial asset in default when contractual payments are 90 days past due or when indications exist that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Credit loss amount of receivable loans or trade receivables is accounted for through profit (loss) using a contrarian account of doubtful receivables. A financial asset is derecognised when there is no reasonable expectation to recover contractual cash flows.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.7. Financial instruments (continued)

#### Financial liabilities

### Initial recognition and evaluation

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans received and payables. All financial liabilities are recognised initially at fair value and, in the case of loans received and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans repaid including bank overdrafts.

### Subsequent measurement

Measurement of financial liabilities depends on their classification as described below.

### Loans received and other payables

After initial recognition, loans and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of comprehensive income.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is an enforceable right to settle the amounts recognized and is intended to be settled net, i.e. to realize the assets and fulfil their obligations at the same time.

### 2.8. Derecognition of financial assets and liabilities

### Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired.
- the Group retains the right to receive cash flows from the asset, but have assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; and
- the Group has transferred their rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group transfers the rights to cash flows but neither transfers the related risk nor the control of the asset, the asset is recognized to the extent that the Group is still related to. The relation to the asset which was transferred is accounted as a guarantee at the lower of accounted value of the asset and the highest of the forecasted amount that the Group may have to pay.

### Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the respective balances is recognised in the statement of comprehensive income.

### 2.9. Cash and cash equivalents

Cash includes cash in the bank accounts. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of 3 months or less and that are subject to an insignificant risk of change in value.

In the statement of cash flows, cash and cash equivalents are considered to be cash in the current bank accounts and deposits the terms of which on the day of signing the contract are no less than three months.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

#### 2.10. Leases

### A. Group as a lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

### Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of the initial measurement of the lease liability, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Land lease rights – from 23 to 99 years.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

### Lease obligations

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the estimates of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

### Short-term leases and leases of low-value assets

The Group apply the short-term lease recognition exemption to its non-current-asset (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

### 2.11. Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each date of the statement of financial position and adjusted to reflect the most accurate recent assessments. When the impact of time value of money is significant, the amount of provision represents the present value of costs expected to be incurred for the settlement of the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as interest expenses.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

#### 2.12. Income tax

The Group companies are taxed individually, irrespective of the overall results of the Group. Income tax charge is based on profit for the year and considers deferred taxation. Income tax is accounted for in the statement of comprehensive income.

The charge for taxation included in these financial statements is based on the calculation made by the management in accordance with tax legislation of the Republic of Lithuania and foreign countries where subsidiaries of the Group operate. The standard income tax rate in Lithuania was 15% in 2021 and 2020. The company operating in Latvia is subject to 0% income tax rate, unless the profit is distributed in the form of dividends, then 20% income tax rate applies.

Tax losses in Lithuania can be carried forward for indefinite period, except for the losses incurred as a result of disposal of securities and/or derivative financial instruments. Such carrying forward is disrupted if the entity changes its activities due to which these losses incurred except when the entity does not continue its activities due to reasons which do not depend on the entity itself. The losses from disposal of securities and/or derivative financial instruments can be carried forward for five consecutive years and can only be used to reduce the taxable income earned from the transactions of the same nature. Starting from 1 January 2014, tax losses may be set off against not more than 70% of the current year's taxable profit.

In Latvia, the procedure for loss carry forward does not apply from 2018.

Deferred taxes are measured using the comprehensive balance sheet method. Deferred tax is recognised, providing for temporary differences between the carrying values of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax assets and liabilities are measured at a tax rate which will (as expected) be applied for the period during which the assets will be realized and the liability covered, based on the tax rates which were adopted or essentially adopted on the date of the statement of financial position.

Deferred tax assets are recognized in the statement of financial position to the extent that the management expects it to be realized in the near future, based on the taxable profit forecasts. If it is likely that part of the deferred tax is not going to be realised, this part of the deferred tax asset is not recognised in the financial statements.

### 2.13. Sales revenue

The Group is engaged in lease and development of investment property.

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of the revenue can be measured reliably. Sales revenue is recognised less VAT and discounts.

Revenue from services is recognized when the services are rendered and when the control of services is transferred to the customer at the amount that the Group expects to receive as consideration for services, yet, such transactions are rear and insignificant.

The Group earns major part of revenue from acting as lessor in operating leases which do not transfer substantially all of the risks and rewards incidental to ownership of an investment property. All rental agreements are long-term and for the majority of lessees the rent is indexed on January 1 of each year based on the Harmonised Indices of Consumer Prices (HICP) or the Consumer Price Index (CPI).

Rental income arising from operating leases on investment property is accounted on a straight-line basis over the lease term.

In relation to the Group business model besides what is discussed in this note, management has not made any other important accounting judgements, valuations or assumptions related to recognition of revenue from contracts with customers, except as disclosed in Note 2.19.

### 2.14. Foreign currencies

Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from such transactions and from the translation of balances of assets and liabilities denominated in foreign currencies at the reporting date are recognised in the statement of comprehensive income. These balances are translated using the closing rate.

### 2.15. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.15. Fair value measurement (continued)

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses measurement techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Measurements are performed by the Group management at each reporting date. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of asset or liability and the level of the fair value hierarchy as explained above.

### 2.16. Impairment of assets

### Financial assets

Financial assets are reviewed for impairment at each balance sheet date.

For financial assets carried at amortized cost, whenever it is probable that the Group will not collect all amounts due according to the contractual terms of loans or receivables, an impairment or bad debt loss is recognized in the statement of comprehensive income. The reversal of impairment loss previously recognised is recorded when the decrease in impairment loss can be justified by an event occurring after impairment recognition. Such reversal is recorded in the statement of comprehensive income. However, the increased carrying amount is only recognised to the extent it does not exceed the amortised cost that would have been had the impairment not been recognised.

### Other assets

Other assets are reviewed for impairment whenever events or changes in circumstances indicate that carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in the statement of comprehensive income. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset no longer exist or have decreased significantly. The reversal is accounted for in the same caption of the statement of comprehensive income as the impairment loss.

### 2.17. Contingencies

Contingent liabilities are not recognized in the financial statements, except for contingent liabilities associated with business combinations. They are disclosed in the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognised in the financial statements but disclosed when an inflow or economic benefits is probable.

### 2.18. Events after the reporting period

Events after the end of the reporting period that provide additional information about the Group's position at the statement of financial position date (adjusting events) are reflected in the financial statements. Events after the reporting period that are non-adjusting events are disclosed in the notes when material.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of accounting policies (continued)

### 2.19. Use of estimates in preparation of financial statements

The preparation of financial statements in conformity with International Financial Reporting Standards requires management to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, income and costs and contingencies. In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

#### Leases

### Determination of the lease term

As a lessor, the Group enters into lease agreements that contain options to terminate or to extend the lease. These options are generally exercisable after an initial period of 4 to 6 years. At commencement date, the Group (supported by the advice of the independent valuation expert) determines whether the lessee is reasonably certain to extend the lease term or not to terminate the lease. To make this analysis, the Group takes into account any difference between the contract terms and the market terms, any significant investments made by the lessee in the property, costs relating to the termination of the lease and the importance of the underlying asset to the lessee's operations. In many cases, the Group does not identify sufficient evidence to meet the required level of certainty.

### Property lease classification - the Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains substantially all the risks and rewards incidental to ownership of this property and accounts for the contracts as operating leases.

### Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

### **Determination of performance obligations**

In relation to the services provided to tenants of investment property (such as cleaning, security, landscaping) as part of the lease agreements into which the Group enters as a lessor, the Group has determined that the promise is the overall property management service and that the service performed each day is distinct and substantially the same. Although the individual activities that comprise the performance obligation vary significantly throughout the day and from day to day, the nature of the overall promise to provide management service is the same from day to day. Therefore, the Group has concluded that the services to tenants represent a series of daily services that are individually satisfied over time, using a time-elapsed measure of progress, because tenants simultaneously receive and consume the benefits provided by the Group.

### Principal versus agent considerations - services to tenants

The Group arranges for certain services provided to tenants of investment property included in the contract the Group enters into as a lessor, to be provided by third parties. The Group has determined that it controls the services before they are transferred to tenants, because it has the ability to direct the use of these services and obtain the benefits from them. In making this determination, the Group has considered that it is primarily responsible for fulfilling the promise to provide these specified services because it directly deals with tenants' complaints and it is primarily responsible for the quality or suitability of the services. In addition, the Group has discretion in establishing the price that it charges to the tenants for the specified services.

Therefore, the Group has concluded that it is the principal in these contracts. In addition, the Group has concluded that it transfers control of these services over time, as services are rendered by the third-party service providers, because this is when tenants receive and, at the same time, consume the benefits from these services.

### Investment company and Consolidation

The management of the Group has assessed its activities to meet the definition of an investment company and considers that Capitalica Baltic Real Estate Fund I UAB does not meet the definition of an investment company as it has the characteristics of a real estate company rather than a pure investment company. Although investors in the Company expect both capital appreciation and operating profit from their capital investment, the Company also carries a significant amount of development risk in its investments, which is typical of a typical real estate company. An investment firm should also make direct investments in companies that are measured at fair value in accordance with IFRS 10. For the parent company of Capitalica Baltic Real Estate Fund I, fair value measurement is indirect - the fair value is the value of assets held in subsidiaries, resulting in the fair value of the subsidiary not necessarily being the ultimate market price of the subsidiary. The Group also estimates its financial

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 2 Summary of Accounting Policies (continued)

### 2.19. Use of estimates in preparation of financial statements (continued)

performance on the basis of rental income, profit margins, volume of assets and other financial indicators of the real estate business, which cannot be measured solely by the fair value of the subsidiary.

Other significant areas of estimation used in the preparation of the accompanying financial statements relate to determination of the fair value of investment property (Notes 2.15 and 4), assessment of off-balance sheet liabilities and contingencies (Note 20) and assessment of the potential impact of the COVID-19 pandemic situation and war in Ukraine, as disclosed in Note 2.21. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effect of any changes in estimates will be recorded in the financial statements, when determinable.

### 2.20. Offsetting

When preparing financial statements, the assets and liabilities, revenue and expenses are not set-off, except the cases when certain standard specifically requires such set-off.

### 2.21. Going concern

As at 31 December 2021, the Group's current liabilities exceeded its current assets by EUR 38 million. During February 2022 the Group has refinanced loans in the amount of EUR 29 million, setting the longer maturity date (Note 24). Also, as disclosed in Note 24 a subsidiary of Group company signed a bond issue agreement in 2022, as at the financial statements date EUR 6.2 million were already issued. The management plans to continue earning profit in 2022 and believes that the Group will earn sufficient income and cash flows in order to carry out its activities and cover its liabilities, therefore these financial statements were prepared based on the assumption of going concern.

The COVID-19 pandemic and the resulting situation did not have a significant impact on the Group's financial results in previous years. The same negligible impact is expected and in the results for 2022.

The management considers that the outbreak of Russia's military invasion of Ukraine on 24 February 2022 will not have a material adverse effect on the Group's ability to continue as a going concern and its performance.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 4 Investment property (continued)

As at 31 December 2021 and 2020, the Group had no fully depreciated investment property still in use.

In 2021, the Group's rental income from investment property totalled EUR 5,088 thousand (in 2020: EUR 4,824 thousand).

The fair value of investment property (shopping centre PC Luizè) estimated by independent appraiser Newsec Valuations UAB as at 31 December 2021 amounted to EUR 6,350 thousand (Level 3 in fair value hierarchy). The fair value of investment property estimated by independent appraiser Newsec Valuations UAB as at 31 December 2020 amounted to EUR 5,950 thousand (Level 3 in fair value hierarchy). The value of assets as at 31 December 2021 and 2020 was estimated using the income method, assessing revenue from lease agreements, expecting annual revenue increase of 1.7–4.0% (depending on the type of lessee) due to indexation (as at 31 December 2020, 1.28–2.0%). Occupancy rate applied was 96% in the first year, 95% in subsequent years (in 2020: 97% in the first year, 95% in subsequent years). As at 31 December 2021 and 2020, capitalisation rate used in valuation was 8.0% and discount rate was 9.75%. Evaluating the discount rate, applied to discounted future cash flows, increase by 0.5%, leaving the rest of the assumptions used for estimating discounted cash flows unchanged, as at 31 December 2021 the fair value of the investment property would decrease by EUR 210 thousand (as at 31 December 2020 – decrease by EUR 190 thousand). Applying 5% decrease of the rent price used for estimating discounted cash flows, the fair value of investment property would decrease by EUR 300 thousand as at 31 December 2021 and 2020.

The fair value of investment property (business centre 135) was estimated by the independent appraiser Newsec Valuations UAB and amounted to EUR 20,390 thousand as at 31 December 2021 (Level 3 in fair value hierarchy). The fair value of investment property (business centre 135) was estimated by the independent appraiser Newsec Valuations UAB and amounted to EUR 18,050 thousand as at 31 December 2020 (Level 3 in fair value hierarchy). The value of assets was estimated using the income method, assessing revenue from lease agreements, expecting annual revenue increase of 1.5–3.25% (depending on the type of lessee) due to indexation (as at 31 December 2020, 1.52–2.5%). In 2021 and 2020, actual occupation of the object was 95% in the first year and subsequently. As at 31 December 2021 and 2020, capitalisation rate used in valuation was 6.5% and discount rate was 7%. Applying 0.5% increase of the discount rate leaving the rest of the assumptions used for estimating discounted cash flows unchanged, value of investment property as at 31 December 2021 and 2020 would decrease by EUR 730 thousand and EUR 620 thousand, respectively. Applying 5% decrease of the rent price used for estimating discounted cash flows, the fair value of investment property would decrease by EUR 890 thousand as at 31 December 2021 and 2020.

The fair value of investment property (business centre Kauno Dokas) was estimated by the independent appraiser Newsec Valuations UAB and amounted to EUR 32,420 thousand as at 31 December 2021 (Level 3 in fair value hierarchy). The fair value of investment property (business centre Kauno Dokas) was estimated by the independent appraiser Newsec Valuations UAB and amounted to EUR 29,520 thousand as at 31 December 2020 (Level 3 in fair value hierarchy). The value of assets was estimated using the income method, assessing revenue receivable from the lease agreements with annual growth of 1.7–3.1% (as at 31 December 2020, 1.3–2.0%) due to indexation. Occupancy rate applied was 95%. In 2021 and 2020, capitalisation rate used in valuation was 7.25% and 7%, respectively, and discount rate was 8.1%. Evaluating the discount rate, applied to discounted future cash flows, increase by 0.5%, leaving the rest of the assumptions used for estimating discounted cash flows unchanged, as at 31 December 2021 the fair value of the investment property would decrease by EUR 1,130 thousand (as at 31 December 2020 – decreaseby EUR 1,040 thousand). Applying 5% decrease of the rent price used for estimating discounted cash flows, the fair value of investment property would decrease by EUR 1,700 thousand as at 31 December 2021 and 2020.

The fair value of investment property (land located at Roberta Hirša iela 1, Riga, Latvia, in which the business centre will be developed) was estimated by the independent appraiser Newsec Valuations UAB and amounted to EUR 29,820 thousand as at 31 December 2021 (as at 31 December 2020 – EUR 8.020 thousand) (Level 3 in fair value hierarchy). In 2021, the value of assets was estimated using the income method, assessing revenue receivable from the lease agreements of the developed business centre, expecting annual revenue increase of 1.85–2% (in 2020: 1.8–2%) due to indexation. The following occupancy rate applied in 2021: 75% in the first year, 95% in the second year for the first building and 75% for the second building, and subsequently – 95% for the project as a whole. The following occupancy rate applied in 2020: 0% in the first year, 75% in the second year for the first building and 37.5% for the second building, 95% for the third and subsequent year for the first building, 88% and 95% for the second building, respectively. As at 31 December 2021 and 2020, capitalisation rate used in valuation was 6.5%, and discount rate – 7.55% and 8.2%, respectively. Evaluating the discount rate, applied to discounted future cash flows, increase by 0.5%, leaving the rest of the assumptions used for estimating discounted cash flows unchanged, as at 31 December 2021 the fair value of the investment property would decrease by EUR 1,700 thousand (as at 31 December 2020 –decrease by EUR 1,580 thousand). Applying 5% decrease of the rent price used for estimating discounted cash flows, the fair value of investment property as at 31 December 2021 would decrease by EUR 2,350 thousand (as at 31 December 2020 – decrease by EUR 4.080 thousand).

As disclosed in Note10, the shopping centre PC Luizė and land (owned by PC Luizė UAB), the business center Kauno dokas (owned by Žaliakalnio parkas UAB) and the business center "135" (owned by Verslo cnetras 135 UAB) are pledged to banks for loans received.

### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

Trade receivables are non-interest bearing and are collectible on 20–30 days term.

### 6 Other receivables

	As at 31 December 2021	As at 31 December 2020
Taxes receivable, except for prepaid income tax Other trade receivables, gross	47	128
Less: impairment of doubtful other receivables	47	128
2005. Impairment of doubtful other receivables	47	128

The Group's other receivables comprise only fees receivable.

### 7 Cash and cash equivalents

As at 31 December 2021 and 2020, cash and cash equivalents comprised cash at banks.

As explained in Note 10, accounts at banks are pledged to banks as collateral for loans. As at 31 December 2021 and 2020, the Group did not have any restricted cash.

### 8 Issued capital

All 18,362 thousand of shares with the par value of EUR 1 each are ordinary and as at 31 December 2021 and 2020 were fully paid. There were no changes in the issued capital during 2021 and 2020.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 9 Reserves

### Legal reserve

The legal reserve is mandatory under the legislation of the Republic of Lithuania. Annual transfers of not less than 5% of net profit are required until the reserve reaches 10% of the issued capital. As at 31 December 2021 and 2020, not all the Group companies complied with this requirement. During 2021, EUR 94 thousand were transferred to the legal reserve (during 2020: EUR 222 thousand).

### 10 Loans

	As at 31 December 2021	As at 31 December 2020
Non-current-term loans:		
Bank loans	32,065	26,284
Current portion of non-current loans	(29,440)	(1,104)
	2,625	25,180

All borrowings of the Group are denominated in euros.

All borrowings of the Group are with variable interest rate which depends on EURIBOR. In 2021 and 2020, the period of repricing of variable interest rate of majority of the loans was every three months.

Weighted average interest rates of borrowings outstanding at the year-end were as follows:

	As at 31 December 2021	As at 31 December 2020
Non-current loans	0.16	2.10
Current loans	2.44	-
Terms of repayment of non-current borrowings are as follows:	As at 31 December 2021	As at 31 December 2020
Within one year	29,440	1,104
After one but no later than five years	2,625	25,180
	32,065	26,284

On 24 February 2022, Verslo Centras 135 UAB and Žaliakalnio Parkas UAB concluded the loan refinancing agreements/made amendments to the loan agreements, on the basis of which the maturity of the loans is extended until 24 February 2027 (Note 24)

In order to secure repayment of loans, the Group has pledged to banks 100% of shares of the Company's subsidiaries PC Luizė UAB, Žaliakalnio parkas UAB, investment property of PC Luizė UAB, Žaliakalnio parkas UAB and Verslo centras 135 UAB (Note 4), claim to receivables and cash at banks (Note 5). Also, land lease rights of the Group companies Žaliakalnio Parkas UAB and Verslo Centras 135 UAB are pledged to banks.

### Compliance with covenants

According to loan agreements, during all loan periods, the Group has to comply with financial debts to EBITDA ratio, debt service coverage ratio and debt to total assets ratio, calculated based on the Group's consolidated financial statements. As at 31 December 2021 and 2020, the Group complied with these covenants.

As at 2021 and 2020, the Group companies were in compliance with the covenant requiring to execute certain volume of cash transactions through the bank accounts.

In 2021, the Group obtained additional loan of EUR 2,000 thousand. The latest term of the loan repayment is 18 December 2022.

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 11 Issued bonds

On 2 May 2019, a bond distribution agreement was signed between the Group company and Šiaulių Bankas AB, company code 112025254, registered office address Tilžės st. 149, Šiauliai. On the basis of this agreement, it was decided to issue 49,990 bonds at a rate of 5% annual interest and with maturity of 3 years, each with a nominal value of EUR 100.

On 10 September 2020, a commitment was signed between the Company, Šiaulių Bankas AB, company code 112025254, registered address Tilžės st. 149, Šiauliai, and Luminor Bank AS, company code 11315936, registered address Liivalaia 45, Tallinn, on the basis of which 30,000 units of bonds with a nominal value of EUR 100 were issued. These 3-year bonds earn 6.5% annual interest. Additional 50,000 bonds were issued in 2021 under the same bond distribution agreement.

	As at 31 December 2021	As at 31 December 2020
Non-current bonds:		
Bonds	13,073	8,052
Current portion of non-current bonds	(5,073)	(53)
	8,000	7,999

The Company is committed that the total amount of the Group's borrowings will not exceed 75–85% of the total Group's assets. As at 31 December 2021 and 2020, the Company was in compliance with this requirement.

The Company confirms that during 2021 and 2020 the Company did not grant loans to third parties, did not provide guarantee or warranty for the fulfilment of the obligations of third parties, nor did it provide assurance for the fulfilment of the obligations of third parties by pledging or mortgaging the Company's assets, except for securing the fulfilment of obligations of legal entities controlled by the Company.

### 12 Other non-current liabilities

A success fee is paid to CAPITALICA ASSET MANAGEMENT, the management company, if the annual return of the Company's investments exceeds 10%. In such case, 15% of the amount by which the minimum Company's investment return exceeds the minimum threshold is paid as a fee. The success fee is paid after the life of the Company comes to the end or 50% of accrued success fee can be paid in advance. The success fee of EUR 53,857 paid in advance was repaid on 23 March 2021 (EUR 263,093 success fee was paid in advance on 15 January 2020).

	As at 31 December 2021	As at 31 December 2020
Accrued success fee	853	155
	853	155

### 13 Right-of-use assets, lease and lease liabilities

Set out below are the carrying amounts of right-of-use assets recognized and the movements during the period:

	Land	Other property plant and equipment	Total
As at 1 January 2020	103	-	103
Depreciation expenses	(4)	-	(4)
As at 31 December 2020	99	-	99
Additions	-	8	8
Effect of change in contract period	25	-	25
Depreciation expenses	(6)	(1)	(7)
As at 31 December 2021	118	7	125

EUR 7 thousand of depreciation of the right-of-use assets was recognised in the cost of sales.

### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 13 Right-of-use assets, lease and lease liabilities (continued)

Set out below are the carrying amounts of lease liabilities and their change during the period:

	2021	2020
Balance as at 1 January	99	103
Additions	8	-
Effect of change in contract period	25	-
Increase in interest	3	3
Payments	(9)	(7)
Balance as at 31 December	126	99
Current	7	4
Non-current	119	95

The maturity analysis of lease liabilities is disclosed in Note 21.

The following amounts are recognised in profit (loss):

	2021	2020
Depreciation expenses of right-of-use assets	7	1
Lease liability interest expenses	3	3
Total recognized in profit (loss)	10	7

The Group's lease payments totalled EUR 10 thousand in 2021 (in 2020: EUR 7 thousand).

### 14 Trade payables

Conditions for trade payables are the following: for current trade payables, interest is not applicable and they are usually settled within a period of 30 days. Non-current loans to suppliers, paid following an agreed schedule, are accounted as non-current payables.

### 15 Other short-term liabilities

	As at 31 December 2021	As at 31 December 2020
Accrued expenses	1,444	
Taxes payable (except for income tax)	144	87
Other payables and current liabilities	38	16
	1,626	103

Interest is not charged for other payables and they are usually paid for within 1 month.

### 16 Sales revenue

	2021	2020
Lease income	3,657	3,588

Income tax expenses comprised as follows:		
Current income tax expenses	7	-
Deferred income tax expenses	1,203	386
Income tax expenses charged to statement of comprehensive income	1,210	386

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 19 Income tax (continued)

	31 December 2021	31 December 2020
Deferred tax assets		
Tax losses	835	581
Deferred income tax asset before valuation allowance	835	581
Less: valuation allowance		<u>-</u>
Deferred tax asset, net	835	581
Deferred tax liability		
Investment property	(5,759)	(4,303)
Deferred tax liability		
Deferred income tax, net	(4,924)	(3,722)

Deferred income tax assets and liability, related to the entities of the Group operating in Lithuania, were accounted at 15% rate as at 31 December 2021 and 2020

The income tax amount from continued operations can be reconciled to income tax expenses, calculated by applying the statutory income tax rate to the Group's profit before income tax as follows:

	2021	2020
Income tax expenses using the tax rate of 15%	1,063	320
Permanent differences	147	66
Income tax expenses charged to statement of comprehensive	4.040	000
income	1,210	386

### 20 Off-balance sheet liabilities and contingencies

Operating lease liabilities - Group as a lessor

The Group has leased premises (investment property) under non-cancellable operating lease agreements. As at 31 December 2021, the remaining lease periods under effective agreements are 1–10 years. Receivable lease fees are either variable depending on the lease term or are revised annually depending on the consumer price index change.

Future minimal lease payments receivable according to the signed lease contracts are as follows:

	2021	2020	
Within one year	3,435	3,713	
From one to five years	6,351	6,605	
After five years	260	233	
	10,046	10,551	

The tax inspection of Verslo centras 135 UAB identified that loan interest are deductible for tax purposes, and, therefore, the Company must pay to the state budget additional income tax of EUR 49,674. The Company disagrees with such a conclusion of the tax authority and appealed the decision to the Tax Disputes Commission. At the reporting date, the Tax Disputes Commission adopted a decision to take no further action on the Company's complaint. By the management judgement, the decision of the Tax Disputes Commission will be appealed to Vilnius Regional Administrative Court. The management anticipates a decision favourable to the Company, therefore, no related provisions were recognised in these financial statements.

### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 21 Financial assets and liabilities and risk management

The Group faces various financial risks when performing its activity. Risk management is conducted by the Company's Board. The main financial risk management procedures applied in the Group's activity were as follows:

### Interest rate risk

The Group's loans consist of loans received with a variable interest rate, which is linked to EURIBOR and creates interest rate risk (Note 10). The Group did not have any financial instruments with the purpose to manage interest rate risk.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates, with all other variables held constant, of the Group's profit before tax. Except for the current year's profit, there is no impact on the equity of the Group.

	Increase/decrease in basis points	Impact on profit before tax
2021		
EUR	+50	(160)
EUR	-10	32
2020		
EUR	+50	(131)
EUR	-10	26

### Foreign exchange risk

The Group's operations and transactions are denominated in euros, therefore the Group is not exposed to foreign exchange risk.

### Liquidity risk

The Group's policy is to maintain sufficient cash and cash equivalents or have available funding through an adequate amount of committed credit facilities to meet its obligations at a given date in accordance with its strategic plans. The Group's liquidity (current assets / current liabilities) and quick ratios ((current assets – inventory) / current liabilities) as at 31 December 2021 were 0.06 and 0.06, respectively (as at 31 December 2020, 3.13 and 3.13, respectively). The decrease in these indicators was influenced by the maturities of bank loans, as the loans were reclassified to the current portion, however, these loans were refinanced on 25 February 2022.

The table below summarizes the maturity profile of the Group's financial liabilities as at 31 December 2021 and 2020 based on contractual undiscounted payments:

	On demand	Less than 3 months	From 3 to 12 months	From one to five years	More than 5 years	Total
Lease obligations	-	-	7	15	104	126
Interest bearing loans	-	18,559	11,234	2,671	-	32,464

Other current payables		3	12	-	-	15
Balance as at 31 December 2020	66	806	1,682	34,009	-	36,563

#### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

### 21 Financial assets and liabilities and risk management (continued)

It is not expected that the cash flows presented in the term analysis can appear early or that their amounts can differ significantly, except as disclosed in Note 24.

### Changes in financial liabilities:

	As at 1 January 2021	Received	Interest charged	Payments	Effect of change in contract period	As at 31 December 2021
Loans	26,284	7,000	724	(1,943)	-	32,065
Issued bonds	8,052	5,000	386	(365)	-	13,073
Leases	99	8	3	(9)	25	126
Total	34,435	15,008	1,113	(2,317)	25	45,264

	As at 1 January 2020	Received	Interest charged	Payments	Effect of change in contract period	As at 31 December 2020
Loans	27,388	-	541	(1,645)	-	26,284
Issued bonds	5,019	3,000	284	(251)	-	8,052
Leases	103	-	3	(7)	-	99
Total	32,510	3,000	828	(1,903)	-	34,435

### Fair value of financial assets and liabilities

The Group's principal financial instruments not carried at fair value are trade and other receivables, trade and other payables, non-current and current borrowings.

The following methods and assumptions are used to estimate the fair value of each class of financial assets and liabilities:

The carrying amount of current trade and other accounts receivable, current accounts payable and short-term borrowings (granted/received at arm's length transactions) approximates fair value (estimated based on Level 3 of fair value hierarchy);

(a) The fair value of non-current debt is based on the quoted market price for the same or similar issues or on the current rates available for debt with the same maturity profile. The fair value of bonds with fixed interest rates approximates their carrying amounts (estimated based on Level 3 of fair value hierarchy).

### 22 Capital management

"Capital" in the meaning of IAS 1 comprises the equity presented in the financial statements.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes of capital management during the years ended 31 December 2021 and 2020.

The Company is obliged to keep its equity at not less than 50% of its share capital, as imposed by the Law on Companies of the Republic of Lithuania. As at 31 December 2021 and 2020, all the Group companies operating in Lithuania complied with the aforementioned requirement for equity.

The Group monitors capital using debt to equity ratio. The capital consists of ordinary shares, reserves, and retained earnings. The management of the Group has not set a specific target for debt to equity ratio, but below presented actual figures are assessed as rather good performance indicators:

### CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021
